

## Competitive Manager – WAG Head Coach

Kapiti Gymnastics is a thriving and successful gymnastics club that has been offering recreational and competitive gymnastics for over 30 years. Housed in our own purpose built building which was significantly extended in 2018 we are now the largest dedicated gymnastic facility in the greater Wellington region. We currently offer both recreational and competitive artistic programmes, and host two large competitions annually including the Wellington Junior Championships which in 2019 saw over 400 competitors competing over two days.

With our newly extended facility we now have the capacity to significantly grow and build on the opportunities and programmes we provide for people in our community. This includes realising our vision of significantly increasing the size of our competitive programme, and exploring the potential of adding additional disciplines and pathways such as Recreational Competitive (Excel).

We are seeking a full time Competitive Manager who will oversee and grow our existing competitive programmes and be our leading WAG coach. The successful applicant will lead a thriving competitive programme that will provide our gymnasts with opportunities to develop and achieve to their full potential, and support our existing young coaches to continue to develop and grow.

A secondary focus of this role will be overseeing the commencement of a Recreational Competitive Programme (Excel) in 2020. It is anticipated this programme will be largely managed by a Lead Coach who will report to the Competitive Manager.

This position is permanent full time (40hrs) with a competitive remuneration package, and based near the beach in a beautiful part of New Zealand, in a supportive and welcoming community.

For further information on this opportunity to join and help lead and enhance an already thriving gymnastics club, and full job description please contact Anna Grant on [Board@KapitiGymnastics.co.nz](mailto:Board@KapitiGymnastics.co.nz). To apply please send a CV and cover letter.
