

## MEMORANDUM

<b>DATE:</b> May 11, 2020	<b>STATUS:</b>
<b>TO:</b> Rhythmic Gymnastics Community	<b>FROM:</b> RG Technical Committee
<b>CC:</b>	<b>ATT:</b>
<b>RE: RG Pass marks for 2021</b>	<b>NOTE:</b>

The Rhythmic Technical Committee have reviewed the 2021 Pass Marks for Gymnasts intending to progress through the Levels/Stages programme in 2021. The following has been determined:

Gymnasts will **NOT** need to meet the Pass Marks as set out in the RG Handbook in order to move within the Levels programme for 2021.

Coaches may decide where to place their gymnasts in 2021. The RG TC reiterates that a gymnast only enter a Level when they are working at the appropriate skill level.

Coaches should not be making decisions now on where to place their gymnasts in 2021, however knowing that there will be no qualification requirements means that better long term planning can occur to get gymnasts back to physical fitness.

### Stages, Junior and Senior International

Gymnasts who are part of the Stages and International programme will need to move up through the Age based levels as per normal to stay aligned with international requirements.

### Apparatus Rotation

The 2021 Apparatus rotation will remain the same as the 2020 Apparatus rotation outlined in the RG Handbook.
