RE: Reviewer makes corrections to the report released yesterday	NOTE:

Good morning all,

Further to yesterday's embargoed release of the report following the Independent Review into gymnastics in New Zealand, a correction was brought to the attention of the reviewer David Howman by the ICM and he has since amended it. We have received the amended version which has [now been published](#).

The corrections have been made to pages 7 and 9 where it was stated that the ICM sent the reviewer summaries of information only from complainants who decided not to pursue their complaints through the review process.

The ICM actually passed on summaries or full statements from all complainants who agreed to provide their information to the review team, irrespective of whether any complaint would or will continue through the ICM's processes.

With the media embargo now lifted, all documents can be found on the [Gymnastics NZ](#) and [Independent Review](#) websites.
